

# Organ donation and transplantation in Europe

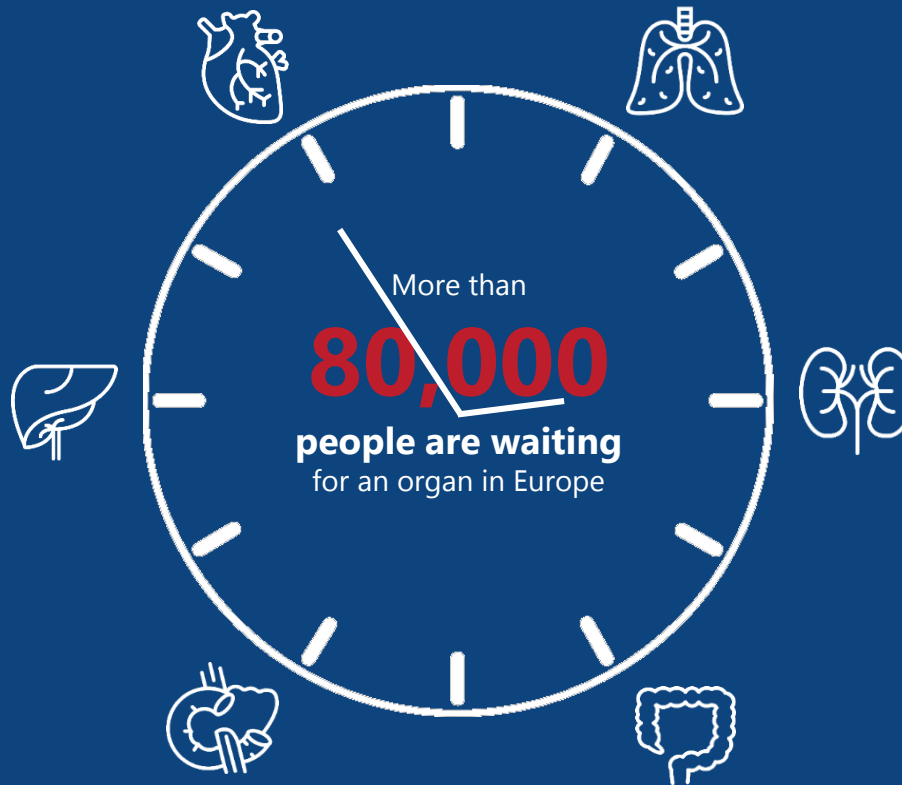

Every day  
**16**  
people die  
waiting for an organ

Every year  
**28,000**  
people benefit  
from organ transplants

There is  
**no age limit**  
for organ transplants donation

A single donor  
can provide organs for up to  
**x8**  
people

On **Tuesday 18 October 2016**, PHA Europe, with endorsement from more than **90 international and national professional and patient groups**, is holding the first ever cross-condition, multi-stakeholder **European Parliamentary event** to agree a comprehensive policy framework to support local countries in ensuring their organ transplant programmes reach their full potential
